

IPSANTARÉM INTERNATIONAL SCHOOL

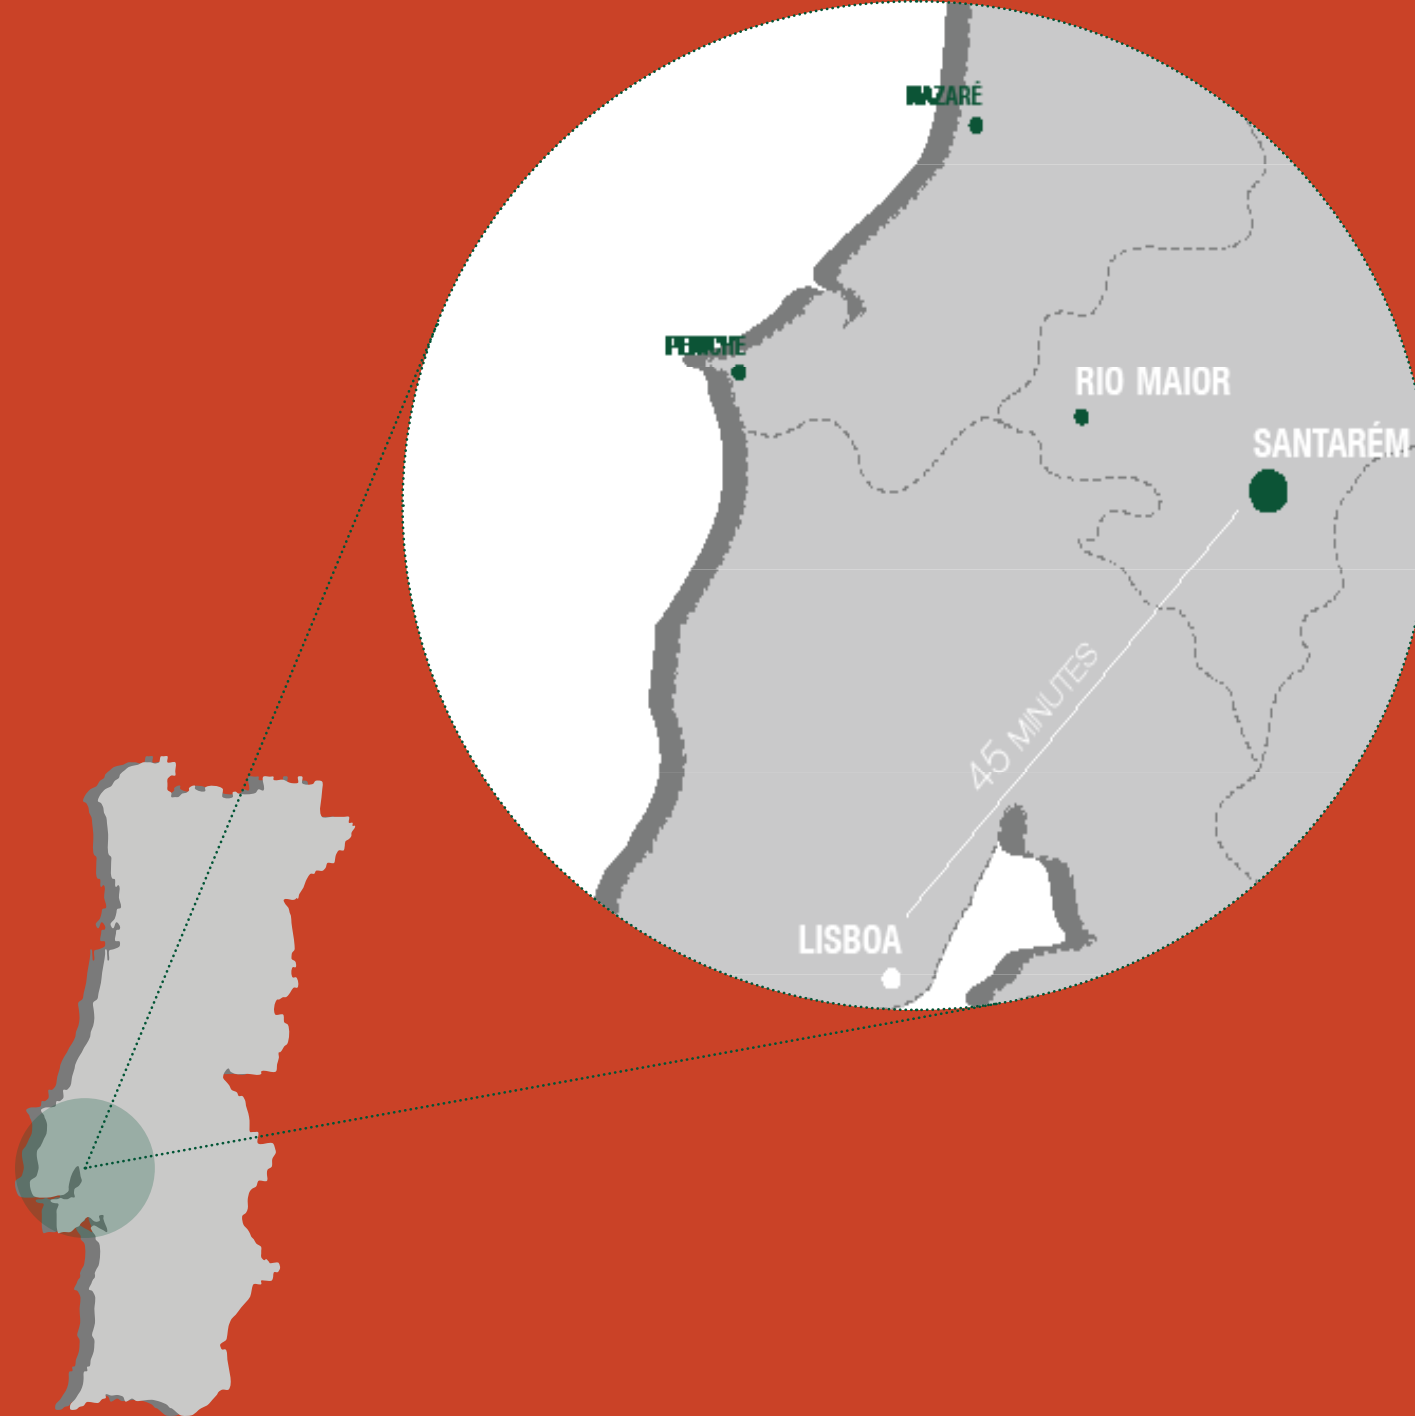

[IPSantarém]
INSTITUTO POLITÉCNICO DE SANTARÉM

POLYTECHNIC INSTITUTE OF SANTARÉM

The Polytechnic Institute of Santarém (IPSantarém) is a polytechnic institution with 35 years of experience in public higher education, with technical and vocational guidance. Annually, it hosts dozens of foreign students, mainly from other European countries.

WHY TO CHOOSE **IPSANTARÉM**

The IPSantarém is a Public Higher Education Institution, located in the cities of Santarém and Rio Maior, that welcomes foreign students wishing to attend courses in several areas of specialization.

Portugal is a country of great touristic tradition with a hosting of great quality. Lisbon is a city full of life, cosmopolitan, with an exceptional luminosity.

Santarém is a central city, just 45 minutes from Lisbon. Rio Maior is a city nearby, between the mountains and the sea.

Some of the best beaches in the west atlantic coast, such as Baleal, Peniche and Nazaré, where surf lovers can enjoy the biggest waves in the world, are just half an hour away.

The region is served by an excellent network of public transport (bus, train) and motorway, that will take you anywhere in the country in a few hours.

Known as the Gothic Capital (architectural style, predominant in the several churches and monuments of the city), Santarém is in the center of a region with vast historical heritage and rich cuisine, with strong cultural traditions, linked to horses and bull fighting. Rio Maior, the “city of sport”, has one of the most well equipped facilities to the sport activities.

Santarém hosts two major national events that attract hundreds of thousands of tourists and visitors: the National Agriculture Fair (early June) and the National Gastronomy Festival (end of October). Rio Maior hosts the Traditional Gastronomic Fair “Tasquinhas” (March) and the Onion Festival (September).

IPSANTARÉM FACILITIES

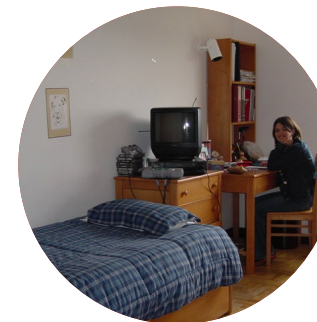

Students have at their disposal three residences located nearby the schools, several restaurants and bars with affordable prices, specialized libraries, sports equipment such as gym, tennis court and running track. Internet access via Wi-Fi is free throughout the *Campus*.

It is provided to the students the administrative assistance by academic services in the schools, and the aid of the academy by the student association from each school.

There are, also, social and sports activities regularly organized by the student association.

FACILITIES IPSANTARÉM
