

FICHA DE PROJETO – Projetos aprovados

Acrónimo:	CICLO
Designação do projeto (PT/EN):	CICLO - boosting the CIrcular eConomy skills of the EU services Labor fOrce
Código do projeto:	2019-1-SK01-KA202-060689
Objetivo principal:	CICLO visions the development of an interactive, needs-oriented online Circular Economy labor market ecosystem and skills mapping and provide a training package for employed and unemployed persons to equip them with basic circular economy jobs skills related to recycling management, reuse and remanufacturing opportunities, servitisation (services instead of products) development.
Entidade financiadora/Programa de financiamento:	Erasmus+
Região de intervenção:	N.A.
Custo total elegível:	278.075,00 EUR
Apoio financeiro da União Europeia:	278.075,00 EUR
Apoio financeiro público nacional/regional:	N.A.
Taxas de financiamento:	100%
Entidade beneficiária:	Instituto Politécnico de Santarém
Investigador Responsável:	Prof. Maria Potes Barbas
Parceiros:	Nezisková organizácia Centrum kontinuálneho vzdelávania; CSI CENTER FOR SOCIAL INNOVATION LTD; MAGENTA CONSULTORIA PROJECTS SL; STIMMULI FOR SOCIAL CHANGE; Fondo Provinciale Milanese per la Cooperazione Internazionale; PRISM – PROMOZIONE INTERNAZIONALE SICILIA - MONDO; MEATH COMMUNITY RURAL AND SOCIAL DEVELOPMENT PARTNERSHIP LIMITED
Equipa:	Maria Potes Barbas; Pedro Matos.
Data da aprovação:	-
Data de início:	01/10/2019
Data da conclusão:	30/09/2021
Domínio científico e subárea científica:	N.A.
Resumo (objetivos, atividades e resultados esperados) - em PT e/ou EN:	CICLO and its training accredited partners will secure the recognition of skills and qualifications of CICLO participants based on

potential for access to the labor market, social and financial integration and simultaneously offering new inclusive pedagogies in education. CICLO It satisfies a number of Erasmus+ objectives such as: Develop a culture of entrepreneurship and innovation among EU citizens - Support inclusive training initiatives and digital inclusion for all - Open and innovative education, training and youth work, embedded in the digital era - Provide an innovative ICT-based educational practice that will motivate the adults to commit in active learning - Transparency and recognition of skills and qualifications to facilitate learning, employability and labor mobility - Sustanable investment, performance and efficiency in education and rating - Combine higher levels of excellence and attractiveness of training and education with increased opportunities for all, including those at disadvantage - Strengthening key competences in C-VET - Enhancing access to training and qualifications to taquier or develop those skills through I-VET and C-VET - Enhancing access to training and qualifications through G-VET - Enhancing access to training and qualifications to acquire or develop those skills through I-VET and C-VET - Enhancing access to training and qualifications to rough G-VET - UET and promoting work-place learning - The work of the consortium will be broken down into a series of overlapping phases incorporating research and analysis, design and development, testing and implementation, validation, localization, communication and exploitation of project outputs. - The consortium consists of 8 partners from 7 - European countries, covering a wide range o expertise related to the scope and the aims of the project, having as well a Pan-European outreach in their activities. Longer tem benefits: - Place the new, expected economic shift of	
 social and financial integration and simultaneously offering new inclusive pedagogies in education. CICLO it satisfies a number of Erasmust-objectives such as: Develop a culture of entrepreneurship and innovation among EU citizens Support inclusive training initiatives and digital inclusion for all Open and innovative education, training and youth work, embedded in the digital era Provide an innovative lCT-based educational practice that will motivate the adults to commit in active learning Transparency and recognition of skills and qualifications to facilitate learning, employability and labor mobility Sustainable investment, performance and efficiency in education and training and education with increased opportunities for all, including those at disadvantage Strengthening key competences in C-VET curricula and promoting work-place learning, the qualifications to racilitate or develop those skills through I-VET and C-VET VET, validation of non-formal and informal learning method of the qualifications to romal and informal qualifications to romal and informal and qualifications to romal and informal the quality, supply and accessibility of C-VET, by increasing the quality, supply and accessibility of C-VET, validation of non-formal and informal learning and development, testing and development, testing and implementation, validation, localization, communication and exploitation of project outputs. The consortium consists of 8 partners from 7 European countries, covering a wide range o expertise related to the scope and the aims of the project, having as well a Pan-European outreach in their activities. Longer term benefits: -Place the new, expected economic shift of 	the EQF, and the ECVET maximizing their
simultaneously offering new inclusive pedagogies in education. CICLO it satisfies a number of Erasmus- objectives such as: Develop a culture of entrepreneurship and innovation among EU citizens - Support inclusive training initiatives and digital inclusion for all - Open and innovative education, training and youth work, embedded in the digital era - Provide an innovative ICT-based educational practice and will motivate the adults to commit in active learning - Transparency and recognition of skills and qualifications to facilitate learning, employability and labor mobility - Sustainable investment, performance and efficiency in education and training - Combine higher levels of excellence and attractiveness of training and education with increased opportunities for all, including those at disadvantage - Strengthening key competences in C-VET curricula and providing more effective opportunities to acquire or develop those skills through I-VET and C-VET - Enhancing accessibility of C- VET, validation of non-formal and informal learning and promoting work-place learning The work of the consortium will be broken down into a series of overlapping phases incorporating research and analysis, design and development, testing and implementation, validation, localization, communication and exploitation of project outputs. The consortium consists of 8 partners from 7 European countries, covering a wide range o expertise related to the scope and the aims of the project, having as well a Pan-European outreach in their activities. Longer term benefits: -Place the new, expected economic shift of	
pedagogies in education. CICL0 it satisfies a number of Erasmus+ objectives such as: Develop a culture of entrepreneurship and innovation among EU citizens - Support inclusive training initiatives and digital inclusive ducation, training and youth work, embedded in the digital era - Provide an innovative education, training and youth work, embedded in the digital era - Provide an innovative ICT-based educational practice that will motivate the adults to commit in active learning - Transparency and recognition of skills and qualifications to facilitate learning, employability and labor mobility - Sustainable investment, performance and efficiency in education and training - Combine higher levels of excellence and attractiveness of training and education with increased opportunities for all, including those at disadvantage - Strengthening key competences in C-VET - Enhancing access to training and qualifications through C-VET, by increasing the quality, supply and accessibility of C- VET, validation of non-formal and informal leararing, and promoting work-place <t< th=""><th></th></t<>	
 CICLO It satisfies a number of Erasmus- objectives such as: Develop a culture of entrepreneurship and innovation among EU citizens Support inclusive training initiatives and digital inclusion for all Open and innovative education, training and youth work, embedded in the digital era Provide an innovative (CT-based educational practice that will motivate the adults to commit in active learning, employability and labor mobility Sustainable investment, performance and efficiency in education and training Combine higher levels of excellence and attractiveness of training and education with increased opportunities for all, including those at disadvantage Strengthening key competences in C-VET curricula and providing more effective opportunities to acquire or develop those skills through I-VET and C-VET Enhancing access to training and qualifications to round on forning and qualifications through C-VET, by increasing the quality, supply and accessibility of C- VET, validation of non-formal and informal learning The work of the consortium will be broken down into a series of overlapping phases incorporating research and analysis, design and development, testing and implementation, validation, localization, communication and exploitation of project outputs. The consortium consists of 8 partners from 7 European countries, covering a wide range o expertise related to the scope and the aims of the project, having as well a Pan-European outreach in their activities. Place the new, expected economic shift of
