| Data da conclusão: | 31/08/2022 |
| Domínio científico e subárea científica: | Ciências da Educação, Inovação na Formação de Professores (Outdoor Education) |
| Resumo (objetivos, atividades e resultados esperados) - em PT e/ou EN: | <p>HangingOUT! is an ambitious project that investigates the possibilities to use 'every' outdoor environment as a way to deal with the mentioned challenges. Eleven complementary strategic partners and different associated partners from five different countries (BE, LT, PT, UK, DK) want to give students, ECEC professionals and parents the confidence, tools and support to explore and create possibilities and experiments with different outdoor educational practices.</p> <p>Our HangingOUT! project has 4 objectives:</p> |

| | |
|---|--|
| | <p>1) To enhance the quality of ECEC through implementing and recognising innovative pedagogies in outdoor education.</p> <p>2) To further develop the professionalisation of educators in ECEC within our network by strengthening the confidence of teachers and responsible adults in going outdoors.</p> <p>3) To discover the opportunities of different outdoor environments (from city streets to mindscapes and from forests over factories to school grounds) while recognizing the wide variety in local, cultural and ecological contexts by experimenting with concrete educational practices.</p> <p>To install a culture of cooperation and co-creation between the different partners and stakeholders in early childhood education and care; deepening on the educational context of each country.</p> |
