Resumo (objetivos, atividades e resultados esperados) - em PT e/ou EN:	The VERFISUM project aims to address a major issue that is present in nowadays society which the Covid-19 pandemic and recent war helped to make more visible, like the access to qualified employment for people with disadvantage backgrounds such as geographical needs

	<p>(e.g. rural areas) or social and economic difficulties. This problem is being enlarged by the migratory situation Europe is facing, yet with migrants from the middle-east region, but now in a more demanding way with migration inside Europe (from Ukraine). The dropout rates although having decreased in most European in the last years are still very high, and with prevision to increase in the next years again, especially among this population.</p> <p>As it can be seen throughout the application, this Erasmus+ project intents to contribute to promote the employment of young people (youth and young adults) addressing specially those will less opportunities by creating innovative learning environments and creating a disruptive digital ecosystem with a set of various deliverables focused on digital competences, employment skills and an adaptation to market needs. In sum, the project and the partnership priorities are, as well, European and National priorities that have been in the policies agenda for the last years and that remain imperative in nowadays society.</p>
